

Processing Documentation

Follow the following steps to obtain the `times_shanghai_mergesRankings` dataset:

1. Open *timesData.csv* (the focal dataset) and copy the top 100 values under column headers **“world_rank”**, **“university_name”**, **“research”**, **“citation”**, and **“international_students”**. Paste these in a new excel sheet named *“times_shanghai_mergedRankings.xlsx”*.
2. Similarly open *shanghaiData.csv* and copy the top 100 values under column headers **“university_name”**, and **“award”** and paste it in the excel sheet named *“times_shanghai_mergedRankings.xlsx”*.
3. The two datasets will now merge based on the common column **“university_name”** in the *times_shanghai_mergedRankings.xlsx* file
